1. Plagiarism is to present someone else's ideas as our own.

2. Where material written by other people has been used (either from a printed source or from the Internet) this has been carefully acknowledged and referenced. We have used the Harvard Referencing style for citation and referencing. Every contribution to and quotation from the work of other people in this assignment has been acknowledged through citation and reference.

3. We know that plagiarism is wrong.
   3.1 We understand what plagiarism is and am aware of the University's policy in this regard.
   3.2 We know that we would plagiarise if we do not give credit to our sources, or if we copy sentences or paragraphs from a book, article, or Internet source without proper citation.
   3.3 We know that even if we only change the wording slightly, we still plagiarise when using someone else's words without proper citation.
   3.4 We declare that we have written our own sentences and paragraphs throughout our assignment and have credited all ideas we have gained from other people's work.

4. We declare that this assignment is our own original work.

5. We have not allowed, and will not allow, anyone to copy our work with the intention of passing it off as his, her, or their own work.
